Mathis Maitrallin

Data Scientist
+33 7 81 71 70 49 | mathis.maitrallin@gmail.com | Portfolio | LinkedIn | Rennes, France | 24 years old |
RQTH (recognised disability worker status)

Profile

Data Scientist with over a year of experience in Data Science and AI. I design efficient data pipelines, modern data platforms, AI agents and dashboards. Holder of a double Master's degree in Data & AI.

Professional Experience

Feb 2025 – Aug 2025 Movement, Sport & Health Laboratory (M2S)
(7 months) **Data Scientist**

- **Data lead** for improving the quantification of energy expenditure
- **Modelling the phenomenon with AI**
- **Data enrichment** / Creation of **KPIs**
- **Data analysis**, **cleaning** and **visualisation**
- Development of an **interactive visualisation application** for decision support

Mar 2024 – Jun 2024 French Athletics Federation (FFA)
(4 months) **Data Analyst**

- **Analysis and cleaning** of a database
- Development of a **visualisation application**
- Enabling every runner in France to **benchmark themselves and set running goals**

Skills

- **Programming**: Python / SQL / MongoDB / R
- **Data Engineering**: ETL projects / GCP (BigQuery) / Spark / Machine Learning / APIs / Relational & NoSQL databases / dbt
- **Analytics**: Excel / Power BI / Streamlit / Microsoft Office
- **Languages**: French (native) / English (B2 / C1)

Education

2025 – Université Rennes 2 Master's in **Applied Mathematics, Statistics** – Honours (Mention Bien)
Track: **Data Science** and **Artificial Intelligence**

- Machine Learning / Deep Learning / Data Analysis & Visualisation / Statistics / Programming / NLP / Cloud / Fundamentals of Generative AI / Time Series
- Thesis: Modelling and integrating EPOC (excess post-exercise oxygen consumption) into daily-life energy expenditure

2025 – Université Rennes 2 Master's in **Digital** and **Sport Sciences** – Honours (Mention Bien)
Track: **Data Science** applied to Sport

- Data Science / Sports performance analysis and optimisation / Technology watch

2023 – Université Rennes 2 Bachelor's in **Mathematics & Computer Science Applied** to the Humanities and Social Sciences – Honours (Mention Bien)
Track: **Data Science** and **Digital Engineering**

Soft Skills

Autonomous / Proactive / Team player / Curious / Detail-oriented
